# COVID-19 Testing Booth

## INSIGHT

COVID-19 is spreading across the globe at an alarming speed with more than 1 million people infected to date.

R O  
O M

## PROBLEM

Health care professionals in the front lines are at high risk of getting infected due to shortage of protective equipment. In Italy healthcare workers make up 9% of all COVID-19 cases presenting a stark warning to the rest of the world.

## AS A RESULT

There are thousands of healthcare professionals testing people every day with little to no protection.

So far more than 2.3 million people have been tested world wide - half of which have tested positive for COVID-19.

## WHAT IF...

There was a an easy and affordable way to offer health care professionals extra protection on the front lines as the pandemic spreads and the need for testing increases? A solution that's easy to ship and deploy across the world in matter of weeks.
