

Perry Family Free Clinic Job Description

Organization Overview

The Perry Family Free Clinic exists to improve access to care for Black men in Dane County by providing professional primary care and disease management. The clinic's vision is to disrupt unhealthy life cycles for Black men by establishing trust and improving their health and the quality of life.

Job Title: WAFCC Public Health AmeriCorps Member

Reports To: Clinic Director

Responsibilities and Duties:

- Community Engagement - Meeting with Dane County Social Workers to help identify community residents lacking healthcare and in need of a medical home.
 - Supporting the Perry Family Free Clinic (PFFC) Physicians by doing patient check-ins on clinic days.
 - Supporting UW Madison School of Pharmacy Students - Operation Diabetes program.
-
- Helping PFFC patients complete Health History Questionnaires.
 - Phone call follow-up with patient appointment reminders.
 - Occasionally picking up and dropping off PFFC patients with agency vehicles.

Perry Family Free Clinic
